### **Cytology**

Diagnostic Principles and Clinical Correlates , 5<sup>th</sup> Edition

By *Cibas & Ducatman*

**Product Type:** Hardcover

**Price:** €179.99

**Subject Area:** Medicine - Pathology

Concise yet comprehensive, *Cytology: Diagnostic Principles and Clinical Correlates* is a **practical guide to the diagnostic interpretation of virtually any cytological specimen** you may encounter. This highly useful bench manual covers all organ systems and situations in which cytology is used, including gynecologic, non-gynecologic, and FNA samples, with an in-depth differential diagnosis discussion for all major entities. As with previous editions, the revised 5th Edition **focuses on practical issues in diagnosis and the use of cytology in clinical care**, making it ideal for both trainee and practicing pathologists.

**Diagnostic Pathology: Familial Cancer Syndromes , 2<sup>nd</sup> Edition**

**By** José

**Product Type:** Hardcover

**Price:** €252.99

**Subject Area:** Medicine - Pathology

This expert volume in the *Diagnostic Pathology* series is an **excellent point-of-care resource for practitioners at all levels of experience and training**. Physicians should have the knowledge derived from morphological findings to identify the likelihood of a cancer patient having an additional underlying familial syndrome- and to decide if that patient should undergo molecular genetic evaluation. This volume is specifically designed to help pathologists, oncologists, and other physicians who diagnose and treat cancer to recognize syndromes and syndrome- associated neoplasms and advise patients and their families on the possibility of a familial syndrome and their risk of developing other tumors. *Diagnostic Pathology: Familial Cancer Syndromes*, second edition, is an **easy-to-use, one-stop reference for information on hereditary cancer syndromes**, including differential diagnosis and management, that offers a **templated, highly formatted design; concise, bulleted text; and superior color images throughout**.
